BACK, NECK &
JOINT PAIN

UN-SEDATED PROLOTHERAPY

For greater pain management, we recommend that patients obtain either of the following medications prior to their procedure. These can be purchased over the counter without a prescription and need to be applied with a minimum of two hours before admission time.

Option 1: Nervoderm

- 5% local anaesthetic
- Comes in 5pk
- Doctors are ok with generic brands if available

Option 2: Soov™ Cream/Gel

- 5% local anaesthetic
- Comes in 5pk
- Doctors are ok with generic brands if available

DISCLAIMER

Please note the contents contained in this Patient Fact Sheet are not intended as a substitute for your own independent health professional's advice, diagnosis or treatment. At Back, Neck and Joint, we assess every patient's condition individually. As leaders in pain intervention, we aim to provide advanced, innovative, and evidence-based treatments tailored to suit each patient. As such, recommended treatments and their outcomes will vary from patient to patient. If you would like to find out whether our treatments are suitable for your condition, please speak to one of our doctors at the time of your consultation.
